ENROLLMENT | TRANSACTIONAL DECISION PATH
POST /offerings/{id}/enroll
Authenticated student
Validate offering, identity
and request semantics
Conditional UPDATE
status = OPEN AND
enrolled_count < capacity
One row
updated?
yes
INSERT enrollment
inside same transaction
Unique constraint
passes?
yes
COMMIT
201 Created
no
ROLLBACK / no seat consumed
409 Conflict
no
Invariant after every committed request:
0 ≤ enrolled_count ≤ capacity
A preflight read is advisory; the conditional
database write is the authoritative decision.
